PROFILE

As a Cloud Engineer, I am a good problem solver and can dive deep into problems. I am continuously analysing, assessing and recommending improvements in the new or existing system infrastructure.

SKILLS

AWS, Linux, Containerization,
Infrastructure provisioning, configuration
management, Infrastructure and application
monitoring, CI/CD,

Networking

Cisco Routing & switching, Mikrotik,
BGP, OSPF (moderate)

Programming

Java, Python, C#, Flutter, Spring, Angular.

Database Management

Postgres, Neo4j & MySQL

LANGUAGES

Dutch native language

English fluent

French moderate

EDUCATION

SEC540 CLOUD SECURITY AND DEVOPS AUTOMATION

SANS Technology Institute

BACHELOR APPLIED COMPUTER SCIENCE

University College Leuven Limburg

Major: system and network management

Honors: Cum Laude

EXPERIENCE

CLOUD ENGINEER

RiskConcile

2020 - Present

RiskConcile is a FinTech company that offers a SaaS solution to companies in the financial sector.

- Implementing a disaster recovery plan using infrastructure as code.
- Building an infrastructure monitoring system.
- Maintaining and building CI/CD pipelines.
- Improve current infrastructure to save monthly costs
- Auditing the cloud infrastructure.
- Help and teach colleagues and interns about topics such as Linux, AWS, security and open source.

SOFTWARE INTERNSHIP

Wisa

2017

During this internship, I developed a web application using Angular.

This application was used by students to view their grades and communicate with the teachers. For this achievement I received a certificate from the Rotary Club Leuven Rotselaar.

SCOUT LEADER

Scouts Sint-Martinus Lubbeek

2017 - 2021

HOBBIES

I am a big music lover. In my spare time, I play and compose classical piano.
